## Odour Counteractant

Code: OCGE

Safeblend Concentrated Odour Counteractant quickly and effectively eliminates odours at the source. It neutralizes malodours in the air and fabrics leaving a fresh, clean scent. It's concentrated formulation is excellent for use in garbage areas, dumpsters and washrooms.

**DIRECTIONS FOR USE:** For best results, dilute with water using the recommended concentrations. **Air freshener – deodorizing spray:** Dilute 1:5 or 200 mL per litre. For other applications, remove the source of the odour when possible and spray directly onto surfaces or preferably directly onto the source of the odour to eliminate malodours. Spray directly into the air or on fabrics. **Damp mopping or carpet extraction machines:** Dilute 1:32 or 30 mL per litre: Add directly to mop bucket or carpet cleaning solution. Ideal for use in washrooms, garbage areas, carpet deodorizing, automotive, hotels, food-service and areas where malodours persist.

**NOTE:** For carpets, pre-test for colourfastness on an inconspicuous area. In order to conserve energy, please use unheated tap water for all dilutions.

**STORAGE:** Keep in a tightly sealed container in a well-ventilated room. Do not store on surfaces that may come into contact with food products. Keep from freezing.
